Manutti

Outdoor fabrics for umbrellas

Outdoor textiles for furniture

Important update for season 2023:

The following fabrics have been redeveloped so that they are now fire retardant:

C008	abyss	(cat A)	→	CF008	FR abyss	(cat A)
C134	aruba	(cat B)	→	CF134	FR aruba	(cat B)
C139	goa	(cat B)	→	CF139	FR goa	(cat B)

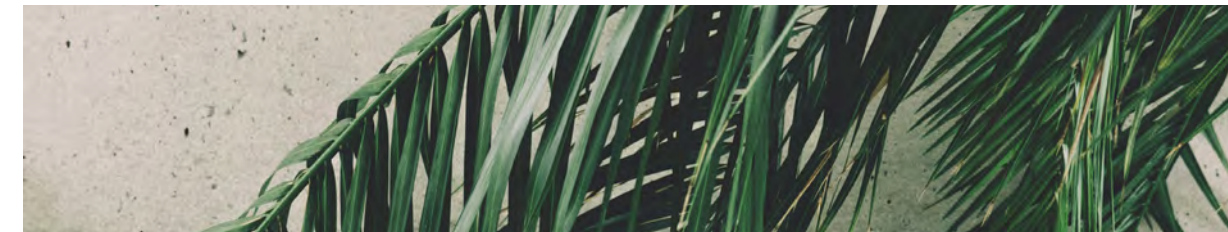

Because it has always been inherently fire retardant, the code and name of the following fabric was updated to reflect this feature:

C033	nautic leather white	(cat B)	→	CF033	FR nautic leather white	(cat B)
------	----------------------	---------	---	-------	-------------------------	---------

More information about our fabrics can be found on manutti.com/fabrics.

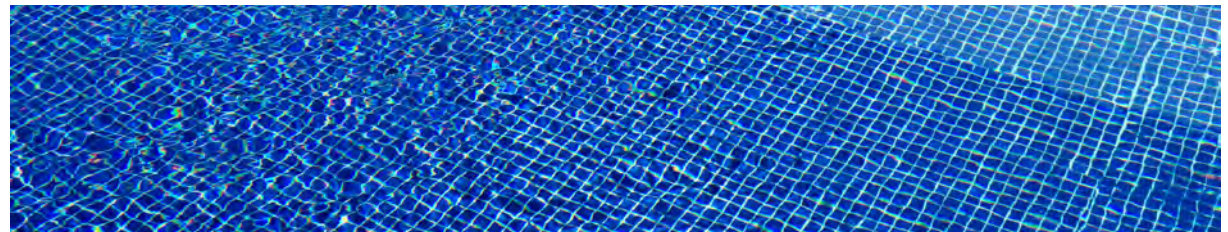

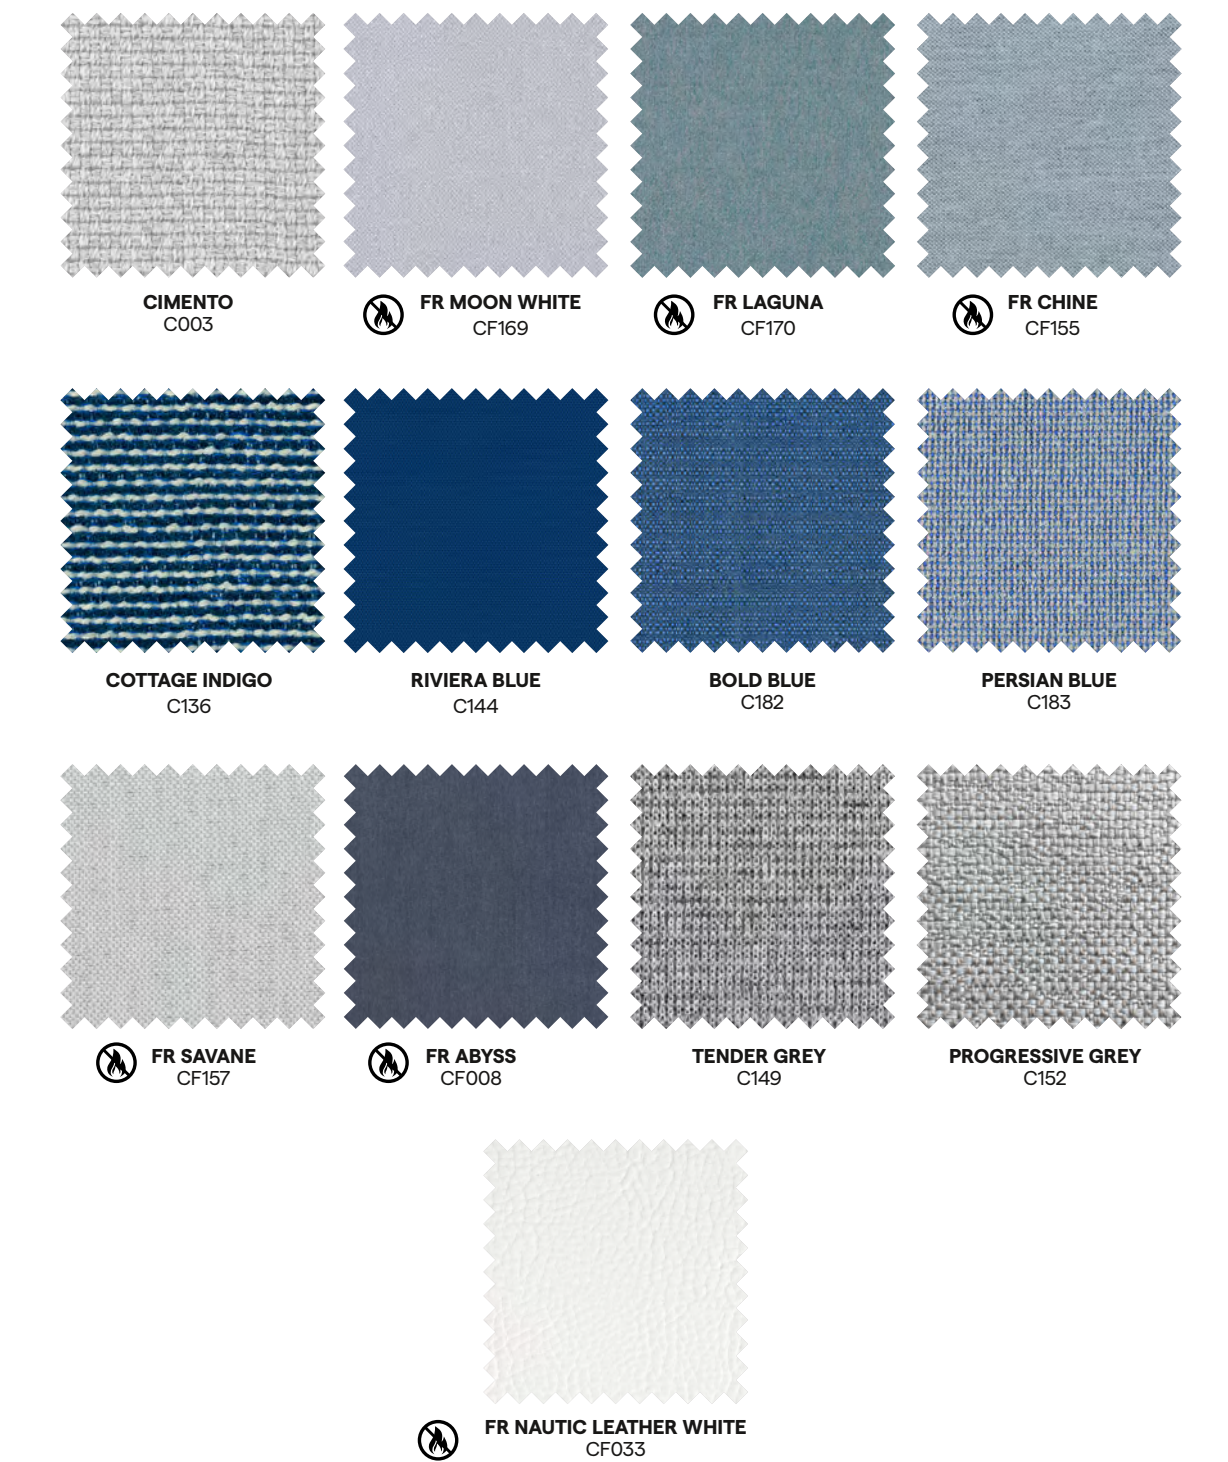

Tender earth

Tropical concrete

Salty dunes

Crisp water
